3 hrs. (Sunday morning)**

Cancellation Policy: No refunds will be made less than 30 days prior to the course. The Academy of Gp Orthodontics reserves the right to delay or cancel this course with the option of a full refund.

Course Objectives:

The course is intended for assistants with little orthodontic training as well as a refresher course for the more experienced assistant. This course will give the chair side assistant a better understanding of orthodontics and the Differential Straight-Arch® Technique. Assistants will be working in pairs on study casts from your office along with typodonts from the Academy. Assistants will learn how to apply brackets, bands, and auxiliaries using the Tip-Edge® System. Dr. Young will cover the Tip-Edge stages of treatment, tracing of cephalometric X-rays, and model analysis of arch length discrepancy. The Academy will provide a TP Orthodontics supply kit which includes bracket kits, a straight-shooter and carousel dispenser (a \$315.00 value, included with First Assistant tuition). A list of supplies needed from your office will be sent with course confirmation.

Course Topics:

- ROs vs. GPs
- Needs vs. Wants
- Informed Consent
- Insurance and Financial Policy
- Finishing
- Six Keys to Ideal Occlusion
- Work-Up
- Tip-Edge System: Stages I, II, III
- Molar Control Through Tip-Edge Stages
